

HEX IS THE WORLD'S FIRST BLOCKCHAIN CERTIFICATE OF DEPOSIT

This common investment tool is used by hundreds of millions of people worldwide, with a market valued in the trillions.

HEX uses blockchain technology to offer the same concept without the middleman.

This results in far better rates for investors, up to 38% APY.

Like many other digital assets **HEX** also offers **SIGNIFICANT PRICE APPRECIATION**. In this domain too, it is without equal. Superior smart contract design has seen HEX become **THE FASTEST-APPRECIATING DIGITAL ASSET IN HISTORY**.

EARN UP TO
**38%
APY**

As measured from each coin's respective launch, HEX has outperformed ETH & BTC ROI relative to their historic runs. Over the course of the nearly 2 years that HEX has been in existence, it currently sits at an ROI of ~1,000x as measured from launch to now. **The chart compares the normalized ROI of HEX, ETH, and BTC as measured from each coin's respective launch.**
