

HEX IS THE WORLD'S FIRST BLOCKCHAIN CERTIFICATE OF DEPOSIT

This common investment tool is used by hundreds of millions of people worldwide, with a market valued in the trillions.

HEX uses blockchain technology to offer the same concept without the middleman. **THIS RESULTS IN FAR BETTER RATES FOR INVESTORS, UPTO 40% APY.**

HEX gives you direct control over your investment strategy by allowing you to build a customised staking ladder.

This enables you to schedule your payouts for key dates and plans. There is no minimum investment and you can stake anywhere from a day to over a decade. You're in the driver's seat.

Like many other digital assets **HEX** also offers **SIGNIFICANT PRICE APPRECIATION**. In this domain too, it is without equal.

Superior smart contract design has seen **HEX** become **THE FASTEST-APPRECIATING DIGITAL ASSET IN HISTORY.**
